# Your Story

And  
no one  
can help you  
tell your  
story  
better than

Vision4Media

**T**hink of the most powerful or exciting movie you've ever seen. What made it so captivating? Was it slick special effects? High-priced actors?

*Or was it a good story, told well?*

At Vision4Media Inc., we believe that there are few things more powerful than a good story presented in a compelling manner. Whether we're working with corporations or charitable organizations, musicians or star athletes, our specialty is finding the story that makes that person or organization special, and bringing it to light.

### *Your Story, In Your Words*

With an extensive portfolio that's rooted in documentaries, commercials and reality television, the principals of Vision4Media have spent years perfecting the art of the interview. We're able to weave powerful stories using the real words of real people. Deftly directed interviews are forever captured to convey the vision of a corporate CEO, the enthusiasm of a satisfied customer, the driving ambition of a star athlete or the warm gratitude of someone who was "rescued" by a charitable organization. Raw and edgy or lyrical and elegant, these interviews are interwoven to create a story that's forceful, organic and remarkably honest. A story that connects with audiences at the most emotional level.

*"I am writing to offer my highest recommendation for producer David Bojorquez. UCLA has commissioned several projects from David... David's entire team is professional, conscientious and hard working. And they are a delight to work with."*

*"The California Association of Marriage and Family Therapists, Orange County Chapter, was looking for a dynamic film maker that could capture the essence of what Marriage and Family Therapists do. Not an easy task. After looking long and hard, we chose Vision4Media. They eloquently put together an emotionally touching PSA that has been successfully used to reach our target market."*

### *Effects that Serve the Story*

Which isn't to say that at Vision4Media we don't use special effects. From national commercial campaigns for the University of California, Los Angeles to interactive kiosks for the Rock and Roll Hall of Fame and Museum, our stunning multi-layer effects have graced a vast array of eye-catching and award-winning productions. But we always remember that effects are only "special" when they enhance – rather than distract from – your story.

### *Are You Ready to Tell Your Story?*

When you work with Vision4Media, you know that every shot, every line of unrehearsed or dramatic dialogue and every effect is specifically crafted to showcase your story. Whether you're looking to create a commercial, PSA, documentary, fund-raising film, marketing DVD or a high definition production for the web, we have the experience and the award-winning, creative skills necessary to tell your story the way it was meant to be told.
